The onset of a global pandemic from the spread of Covid-19 has had a marked impact on the daily lives of global citizens and the economy at large. While the impact is likely to persist for some time, we are confident of our ability to weather the storm and, as such, the group's focus during this time is on leveraging its financial strength and flexibility to continue building a business that grows strongly, generates high rates of return and provides employment for thousands of employees over the long term.

Our approach to fair and responsible pay

The Naspers approach to remuneration

We believe in **pay for performance**: we are comfortable with bigger rewards for those that make the highest contribution

Remuneration must be **aligned with shareholder outcomes**

Remuneration must incentivise the **achievement** of strategic, operational and financial objectives, in both the short and longer term

We are **consistent**: our reward package elements are broadly the same, regardless of seniority*

Our reward systems must help us attract and retain the best talent around the world in a **fair and responsible way**

* Some employees do not receive longer-term incentives.

Our remuneration systems are:

Responsible

- Independent: with oversight, top-down via board
- Managed: all employee pay decisions are properly overseen
- Considered: judgement is applied; we shy away from formulaic appraisals that could lead to unacceptable outcomes
- Sustainable: remuneration designed with sustainability in mind

Fair

- Rational: easy to explain
- Equitable: free from discrimination
- Relevant: linked to personal and company performance

⁽¹⁾ The CFO's compensation was historically structured on the basis of total cost to company (TTC), which included base salary plus benefits. Effective FY21 this structure is aligned to that of the CEO, without impacting the total target cash position.

⁽²⁾ Actual payout over FY20 performance; achievement of STI goals are shown on pages 5, 15 and 25 of the remuneration report and on pages 6, 9 and 13 in the integrated annual report.

⁽³⁾ Includes for CFO an additional variable bonus over FY20 capped at 25% of TTC relating to obtaining new general funding.

⁽⁴⁾ Medical insurance, life and disability insurance.

⁽⁵⁾ Executive directors are executive directors of both Naspers and Prosus. The costs of their remuneration as executive directors of these entities are split 10/90 between Naspers and Prosus.

⁽⁶⁾ Represents the fair value on grant date in accordance with IFRS 2 of awards made during FY20. The actual value accruing to the executive will depend on the real value created over the time of the award. The figure disclosed in the 2019 remuneration report was estimated and therefore differs slightly from the figure reported in this table.

The potential gain of awards vested during FY20 is shown on page 17 of the remuneration report.

Dilutive impact of group LTI schemes

Since 1 April 2018, the group purchases Naspers shares on the JSE for the purpose of issuing new Naspers SOs to employees and settling gains made on all share-based incentive schemes. The group's share-based incentive schemes are set out in equity compensation benefits in the notes to the annual financial statements on www.naspers.com.

In accordance with schedule 14 of the JSE Listings Requirements and the South African Companies Act, shareholders authorised the board at the annual general meeting in August 2011 that up to 40 588 541 N ordinary shares (approximately 10% of the then issued N ordinary share capital) may be issued for purposes of the group's various share-based incentive schemes. From August 2011 to 31 March 2018 approximately 4% of issued N ordinary share capital has been used for the share-based incentive schemes. Since then, Naspers N shares have been purchased on market to settle the group's share-based incentive scheme requirements and this is intended to continue. However, to address shareholder concerns about potential dilution in future should the group return to issuing new Naspers N shares for purposes of its share-based incentive schemes, and notwithstanding the shareholder approval currently in place, the board has determined that no more than a further 21 775 553 new N ordinary shares (approximately 5% of the current N ordinary share capital post the share repurchase programme executed in the 2020 financial year) may be used from the date of the 2020 AGM for purposes of the share-based incentive schemes without first returning to shareholders for approval.

Looking forward to FY21

Due to the ongoing uncertainty created by the Covid-19 pandemic, there will be no performance-related salary increase for the executive directors for FY21, as we do not think it is appropriate to increase the cost base at this point in time. The pay review for all other employees has been postponed until further notice.

The effect of the Covid-19 pandemic on the Naspers group is not clear at this time. This creates significant uncertainty, which may mean that we need to adjust the objectives for the STI plan as such effect becomes clearer during the course of FY21. In addition, the committee may determine that it is not appropriate for the full (or any) bonus to be paid for FY21.

Given the longer-term focus of the company, and the prudent approach on pay and bonus, it will still be appropriate to issue LTI awards in the coming year, though the grant date will be postponed until August or early September, in line with the LTI awards to the broader employee population this year.

From FY21 onwards, the CFO will also be paid on a base salary basis. He was historically paid on a total-cost-to-company basis (TCTC), which is more typical for South African companies. This change now brings his compensation structure in line with international norms and with that of the CEO. The overall total cash opportunity for the CFO has not changed due to this restructure, as is shown on page 24 of the remuneration report.

Basil Sgourdos, CFO	1 036	100%	7 252		81	24	9 429

⁽¹⁾ The executive directors did not receive an increase in base salary in this financial year. It is also noted that, from FY21 onwards, the compensation structure of the CFO changed from TCTC to base salary, without impacting the total target cash position. The maximum bonus is capped at 100% instead of 125%.

⁽²⁾ This is the at-target and also maximum STI as a percentage to base salary. STI goals are shown on page 8 of the remuneration report and on pages 6, 9 and 13 in the integrated annual report.

⁽³⁾ Represents the estimated fair value of the LTI awards on grant date in accordance with IFRS 2, of grants that are intended to be made in FY21. The actual value accruing to the executive will depend on the real value created over the time of the award. The figure is based on indicative values and may therefore differ from the final fair value granted.

⁽⁴⁾ The net employer pension contributions for Bob van Dijk will remain stable at 6.5% of base salary. The life insurance costs will drop for both executives as a result to a change to a new provider.

⁽⁵⁾ Medical insurance, life and disability insurance.

⁽⁶⁾ Executive directors are executive directors of both Naspers and Prosus. Their remuneration as executive directors of these entities are currently split 10/90 between Naspers and Prosus.

FY21 LTI awards

We have set out information below on the longer-term incentives to be made during the 2021 financial year:

⁽¹⁾ Represents the estimated fair value of the LTI awards on grant date in accordance with IFRS 2 of grants intended to be made in FY21. The actual value accruing to the executive will depend on the real value created over the time of the award. The figure is based on indicative values and may therefore differ from the final fair value granted. The number of PSUs, SARs and SOs awarded will be based on the value at the time of grant.

Executive remuneration is heavily weighted towards longer-term performance, delivered in PSUs, SARs, or SOs, and with every award subject to individual performance.

The committee has continued to award PSUs to senior executives in FY21, having introduced the programme in FY20. PSUs constituted approximately 45% of the LTI award made to the executive directors in FY20 and this will be approximately 60% for FY21.

Figures 1 and 2 show what the approximate balance of the invested LTIs for the executive directors, post this FY21 allocation, will be.

Because no one LTI vehicle can perfectly meet all our criteria, we employ a blend of LTI programmes, as shown in the table below. PSUs, SOs and SARs create a truly balanced mix of LTIs with value-based performance hurdles, in line with shareholder value creation, as shown in figure 3.

Please refer to the A-Z section on pages 37 to 40 of the remuneration report for further detail on our LTI policies.
